Secure translations and GDPR compliance

The screenshot shows the DeepL Pro web interface. At the top right, a notification bubble with 'OP' and a green checkmark is highlighted with a red box and a yellow mouse cursor. Below the navigation bar are three main service buttons: 'Translate text' (33 languages), 'Translate files' (.pdf, .docx, .pptx), and 'DeepL Write' (AI-powered edits). The main content area features a language selector set to 'German', a style selector set to 'Informal', and a user profile 'Marc_Test'. The central text input area contains the prompt 'Type to translate.' and instructions for file uploads and speech translation. A microphone icon is visible at the bottom left of the input area. Below the input area is a 'Dictionary' section with the instruction 'Click on a word to look it up.'

Before translating, make sure that you are logged in with your DeepL Pro account.
